

HEBEIYUYANG AUTO PARTS CO., LTD.

Product Details

Cooling capacity	7500 Btu
Heating capacity	5100 Btu
External dimensions	900 × 800 × 364 mm
Maximum skylight size	835×545 mm
Mounting holes on the roof	572× 266 mm
Input voltage (AC)	DC 12/24V
Product weight	31KG
Rated power	400-1000 W
Rated current	400-1000 W
Noise level	65dB
Refrigerant	R134a
Fan speed	5
Temperature	61 °f~86 °f
Ambient operating temperature	23 f°~ 115 °f
Packaging dimensions	1000× 900 ×400 mm
Air exchange volume	450m³ /h

1. Base plate
2. Condenser core
3. Air conditioner top cover
4. Electronic fan
5. Motor cover
6. Condenser fan assembly
7. Evaporator cover
8. Right cover of water tank
9. Left cover of water tank
10. Fixing screws
11. Evaporator fan
12. Indoor unit controller panel
13. Indoor unit controller
14. Indoor unit partition
15. Indoor unit housing

16. Decorative panel
17. Decorative plug
18. Compressor bracket
19. Compressor cushion
20. Controller
21. Compressor exhaust pipe
22. Condenser outlet pipe assembly
23. Spinning head 1.5
24. Evaporator expansion valve
25. Compressor
26. Evaporator core assembly/including O-ring
27. Fixed channel steel
28. Hexagonal flange nut
29. 10-diameter gasket
30. Compressor suction pipe

Cooling, heating, fan mode Effective two-way air flow distribution Intelligent preheating start heating without cold wind low voltage start function Low voltage protection Effective cooling Intelligent defrost Sleep mode Quiet operation Pneumatic compact design Electricity saving design Self-diagnosis and fault reading Automatic restart function after power failure Timer function Replaceable and washable air filter	
The new YCT-8000 ceiling mounted air conditioner offers 10% higher cooling efficiency, which improves the operating efficiency of the compressor. Modern Design The modern and innovative design not only results in a stylish design, but it also offers lower air resistance, making it ideal for leisure use. Air Distribution The console plenum distributes cool or warm air quickly and efficiently. This ensures maximum comfort. The compact design allows the air conditioner to be easily and quickly installed in a standard 572x 266mm ceiling cutout.
